- Local Government Financials
- Financial Recovery

FINANCIAL HEALTH

Government can deliver services citizens expect with resources citizens provide, now and in the future.

FIVE PRINCIPLES OF FINANCIAL HEALTH

- More than a grade No single grade or rating can be comprehensive
- More than a balanced budget
- Requires a focus on context
- Is everyone's responsibility
- Effective operations managementcost savings, efficiencies

Three Main Components

- Cash Solvency Are bills paid when due?
 - Enough cash to pay bills due for the next 60 to 90 days?
- Long-Term Solvency Will revenues cover long-term needs?
 - Long-term debt, pension expenses and retiree health care and other spending needs
- <u>Service-Level Solvency</u> Continue to deliver basic services in the face of major changes in economy and political circumstances

Questions for Identifying Financial Health What ...

- 1. Is the budget process?
- 2. Is the policy for fund balance?
- 3. Is liquidity meeting short term needs?
- 4. Is ratio of revenues vs. expenses
- 5. Is total liabilities as a percentage of revenues?
- 6. Are debt management/affordability policies?
- 7. Are capital assets conditions?
- 8. Are actual revenues compared to budget?
- 9. Are controls over expenditures?
- 10. Reliance does the budget have on State/Federal Aid?

"Fiscal Distress" defined in the context of Chapter 836, §4-8.03:

"A situation whereby the provision and sustainability of public services is threatened by various administrative and financial shortcomings including but not limited to cash flow issues; inability to pay expenses; revenue shortfalls; deficit spending; structurally imbalanced budgets; billing and revenue collection inadequacies and discrepancies; debt overload; failure to meet obligations to authorities, school divisions, or political subdivisions of the Commonwealth; and/or lack of trained and qualified staff to process administrative and financial transactions."

7

Stages of Local Fiscal Difficulty

- 1. Distress Sustained period of budgetary imbalance, cutbacks to essential services and inability to pay bills.
- Crisis Mechanisms to address budgetary issues, such as expense reductions, tax/fee increases and short term borrowing fail to stabilize problem(s) resulting in financial emergency.
- 3. Bankruptcy Rarely, localities may file for Chapter 9 bankruptcy (not authorized in Virginia).

APA Fiscal Distress Monitoring Overview

 2017 Virginia Acts of Assembly directs the APA to establish a prioritized early warning system to identify possible local fiscal distress within localities on an annual basis.

 Localities are given a Financial Assessment Model (FAM) score based on analysis of audited financial statement data and other qualitative factors.

FAM Score Calculation

- APA using a model to calculate 10 ratios using audited data from the localities' CAFRs
- Each locality's performance ranked by ratio, then into percentile rankings
- An average of the percentile rankings determines overall FAM score
- APA uses the FAM score to evaluate and make a preliminary determination for need to follow-up

FAM Score Ratios

Based on the Government Wide Financial Statements:

- Ratio #1 ability to make up revenue shortfall
- Ratio #2 ability to pay current liabilities without additional revenue
- Ratio #3 are existing revenues sufficient to pay total liabilities
- Ratio #4 ability to meet future obligations
- Ratio #5 sufficient reserves to pay expenses with a revenue shortfall
- Ratio #6 to what extent are assets financed with debt

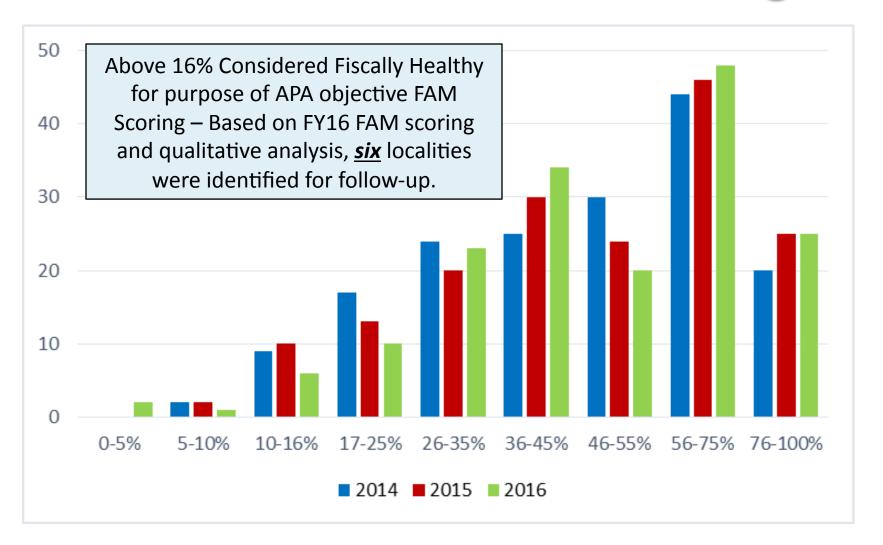

Based on the General Fund Balance Sheet and Income Statement:

- Ratio #7 ability to pay liabilities without additional revenues
- Ratio #8 is the locality paying its bills timely
- Ratio #9 how long can reserves fund current expenditures
- Ratio #10 total reserves compared to total revenue

APA Fiscal Distress – Notifications to Localities

- For a FAM score that causes concern (16% or less), notification letter sent to Governing body and Management
- Explained the FAM calculation process and the cause for concern
- Explained APA's follow up process using the questionnaire
- Explain potential assistance available

Distribution of FAM Scoring

Fiscal Assessment Follow Up Questions (Budget Process)

- 1. Does the locality have a structurally balanced budget ?
- 2. Has the locality utilized any significant transfers in order to balance the budget?
- 3. How many times during the FY has the locality made amendments to its budget?
- 4. What is the locality's budget monitoring and reporting process.

(Debt and Borrowings)

- 1. Delinquent on any debt service payments?
- 2. Non-compliant with any debt covenants?
- 3. Any significant borrowings between funds?
- 4. Any tax or revenue anticipation notes/loans?
- 5. Any other type of short-term financing/debt?

(Expenses and Payables)

- 1. Any payments in arrears to vendors or authorities?
- 2. Any instances of not meeting the Prompt Payment Act?
- 3. Use of any AP aging analysis tools or reporting techniques to review liabilities and maximize cash flow?
- 4. Delinquent in paying any payroll taxes?
- 5. Delinquent in paying any retirement contributions to the VRS?
- 6. Delinquent in paying worker's compensation and/or health insurance premiums?

(Revenues and Receivables)

- 1. Any "one-time" significant revenue items?
- 2. Experiencing any significant issues with collecting receivables?
- 3. Use of any AR aging analysis tools or reporting techniques to review collections and overdue, delinquent accounts?
- 4. Is there a significant increase in delinquent accounts?
- 5. Any significant revenue shortfall in a specific local revenue?

(Other Areas and Reporting)

- 1. Any vacancies in key management and/or finance related positions?
- 2. Any major issues with implementing new systems or technology?
- 3. Did the independent auditor report any material weaknesses and/or significant deficiencies during the last FY?
- 4. Did the independent auditor bring to the attention of management and the governing body any other matters or control deficiencies?
- 5. Did the independent auditor provide an unmodified opinion on the locality's financial statements?
- 6. In the CAFR, did the independent auditor's report emphasize any concern about the locality's fiscal ability or describing potential fiscal stress?
- 7. Did the CAFR include a disclosure on the ability to continue as a going concern?

INTERPRETING LOCAL GOVERNMENT FINANCIALS

- Are we looking at the REAL financial statements Government-Wide Statements or Fund Statements?
 - Government-Wide: Operational accountability, <u>long-term</u> focus
 - Fund Statement: Fiscal accountability, <u>near-term</u> results and their impact on near-term cash flows.
- Fund Balance not always a measure of financial well-being. Do you
 have sufficient reserves to meet today and tomorrow? How many days of
 operations can you cover with cash and short term receivables?
- How sustainable are principal revenue sources and how are they performing?
- What is the message from budgeted revenue and expenditure variances?
