

## Seeking FEMA Assistance to the COVID-19 Pandemic

Under the Presidential National Emergency Declaration, the Federal Emergency Management Agency (FEMA) is authorized to reimburse local governments for costs associated with “emergency protective measures” in response to the COVID-19 pandemic. These emergency protective measures are defined in Category B of the Public Assistance Program of the Stafford Act. A summary of eligibility expenses follows:

### Emergency Protective Measures (Category B)

In accordance with the Presidential National Emergency Declaration, FEMA will reimburse local governments up to 75% of the cost for actions taken before, during, and after the COVID-19 pandemic to save lives, and to protect public health and safety. Examples of measures that may be eligible for reimbursement include:

- Warning of risks and hazards;
- Emergency mass care;
- Transportation, care, shelter, and essential needs for humans affected by the outbreak and spread of an the COVID-19 pandemic;
- Protection, security for an eligible facility and areas;
- Provision of food, water, ice, and other essential items at central distribution points;
- Temporary generators for facilities that provide health and safety services (this may include mobile health services);
- Temporary facilities essential community services (this may include clinics and mobile health care units);
- Emergency operations centers to coordinate and direct the response to the COVID-19 pandemic; and
- Removal of health and safety hazards.

Congress and the Administration may approve additional reimbursements for expenses of other essential protective measures by passing supplemental appropriations bills or administrative actions.
